S.C.E.C.H.S SCIENCE NATIONAL HONOR SOCIETY

ADMISSIONS REQUIREMENTS

Membership is an honor bestowed upon a student.

A member must have completed 2 Science courses.

A member must be enrolled in at least one honors level Science class during or prior to the 11th grade year.

A member must be enrolled in at least one second year honors Science class during or prior to the 12th grade year.

A member must be enrolled in at least one upper level Science class during the 12th grade year.

SNHS OVERVIEW ABOUT US

The Science National Honor Society (SNHS) recognizes students who have demonstrated excellence in recognizing scientific and intellectual thought. These students work to advance the students in their schools by sharing knowledge of classical and modern science.

TOPICS FOR THE SCHOOL YEAR 2021-2022

January, 2022

Astronomy

February, 2022

Health Science

March, 2022

Technological Science

April, 2022

Environmental Science

SPRINT TO EXCELLENCE

The Science National Honor Society, in partnership with Clean Sweep Frederiksted, has been tasked with completing the requirements of the "Sprint to Excellence" grant. This grant focuses on Public Art in Public Schools.

It is our aim to display STEM murals in strategic places throughout the school to evoke the awareness and the knowledge of all viewers that the St. Croix Educational Complex is the only Science and Math Magnet School in the district.

"We are honored!"
